Part 1 -- Case Studies
Case Study 1 -- College Courses

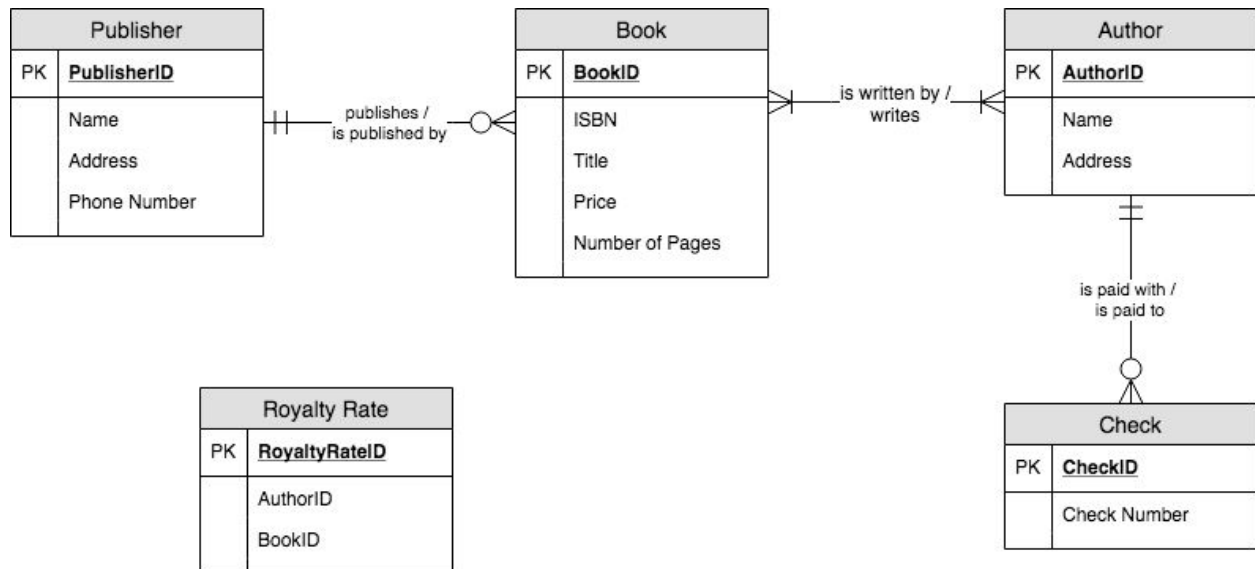

Case Study 2 -- Project Management
 (see following page)

Case Study 3 -- Book Publishing Database

Initially, this is what made the most sense to me (I know we discussed different options in class)

Entity	Attribute	
Publisher	PublisherID	Publisher publishes one or more books. A book is published by only one publisher.
	Name	Each book is written by one or more authors. Each author writes one or more books.
	Mailing Address	Each author receives one or more checks. Each check is paid to only one author.
	Telephone Number	
Book	BookID	
	ISBN	
	Title	
	Price	
	Number of Pages	
Author	AuthorID	
	Name	
	Address	
Check	CheckID	
	Check Number	

Part 2 -- VidCast Concept Model
